The Dinosaur Bully

By Kathleen W. Redman

As the children ate their *T. rex* burgers and *pterodactyl* potatoes, Dr. Dinosaur went back to his office in the museum.

"Are our burgers made out of *Tyrannosaurus* meat?" Julie asked.

"No," their teacher said. "They are just regular hamburgers. The name is just for fun."

"So our fries aren't made from *pterodactyls*?" Jaime asked.

"That's right," Mrs. Adams said. "It's more fun that they have dinosaur names, isn't it?"

The children all agreed that it was fun.

Just as they finished, Dr. Dinosaur came back.

"I have a treat for you, children. We are going to make rubbings of a *T. rex* footprint," he said.

"What is a rubbing?" Lane asked.

"It is a kind of picture. You put a piece of paper over what you want to copy and rub charcoal over it. The picture shows up on your paper."

"Will all of us get to make one?" Maria asked.

"Yes, but we have to hurry," Dr. Dinosaur said. "I will tell you about the *T. rex* while you work."

Everyone hurried down the hall after Dr. Dinosaur.

"The *T. rex* had big feet, so you have a big job," he said. "Its footprint was about 1 1/2 feet long. Its feet were really about 3 1/3 feet long. It walked on its toes, so the footprint is shorter."

Just then they came to a room in the museum with a lot of tables. Each table had a big piece of some kind of rock on it.

"Everyone sit at a table, and my helpers will tell you how to start."

The children began their rubbings. While they worked, Dr. Dinosaur told them about *T. rex*.

"*Tyrannosaurus rex* means 'tyrant lizard king,'" he said. "A tyrant is a kind of bully. *T. rex* was quite a bully. He was very big. He ate dinosaurs that were much bigger than he was. You know he ate *Triceratops*. He could bite off 500 pounds of meat and bones at one time! He had about 60 teeth. The teeth were from 9-13 inches long.

"His skin was bumpy like an alligator's skin. He could see very well because his eyes were on the front of his head. He had a very good sense of smell. He couldn't run very fast, though. He could only run about 15 miles per hour."

"Did he have four legs like *Triceratops*?" Mel asked.

"Yes, but he only ran on his two hind legs. His front legs were very short and had two fingers with claws. His hind legs were very strong."

"Were its claws big?" Dee wanted to know.

Name: _____

"They were pretty big," Dr. Dinosaur said. "They were at least eight inches long. They were very, very sharp."

"I don't like *T. rex* very much," Jo said.

"I don't think any of us would," Dr. Dinosaur added. "He could eat five or six of us in one bite!"

All the children were finished with their rubbings. They were proud of them. Each rubbing showed a huge three-toed foot.

The children were happy. They were tired, too. It had been a long day at the museum.

"I think I hear a bus," Dr. Dinosaur said. "It's time to go back to school."

"May we come back?" Terri asked.

"Of course!" Dr. Dinosaur said. "I would be happy to see you again."

"Thank you, Dr. Dinosaur," Mrs. Adams said.

"Thank you, thank you, thank you!" all the children said.

The children got on the bus and waved good-bye to Dr. Dinosaur. They had learned so much. They had fun, too! They wanted to learn more about dinosaurs.

The Dinosaur Bully

Questions

- _____ 1. The children ate regular hamburgers. Why were they called *T. rex* burgers?
- A. because they tasted like lizards
 - B. because the museum was about dinosaurs
 - C. to trick people
 - D. because they had pictures of dinosaurs on them
- _____ 2. What is a rubbing?
- A. a kind of picture
 - B. an eraser
 - C. a fight
 - D. something made out of rubber
- _____ 3. Why was *T. rex*'s footprint shorter than its foot?
- A. *T. rex* walked on tiptoes.
 - B. *T. rex* hopped.
 - C. *T. rex* wore small shoes.
 - D. *T. rex* crawled.
- _____ 4. What does *Tyrannosaurus rex* mean?
- A. tyrant lizard king
 - B. very bad dinosaur
 - C. thunder lizard
 - D. mean, ugly dinosaur

Name: _____

- _____ 5. About how many teeth did *T. rex* have?
- A. 60
 - B. 46
 - C. 32
 - D. 12
- _____ 6. About how many pounds of meat could a *T. rex* get in one bite?
- A. 200
 - B. 500
 - C. 300
 - D. 400
- _____ 7. Which two of *T. rex*'s senses were especially good?
- A. hearing and taste
 - B. smell and taste
 - C. touch and taste
 - D. sight and smell
- _____ 8. When they left the museum, the children felt
- A. angry and upset
 - B. happy, tired, and proud
 - C. sick and tired
 - D. tired and sad

Name: _____

Challenger Heroes

By Jody Williams

The space shuttle was set to go. The astronauts were ready. The countdown started. The space shuttle *Challenger* was on its way. Most people in America watched. They watched from the ground. They watched on TV. Seventy-three seconds later it was gone.

January 28, 1986, is a day that many people will not forget. The space shuttle *Challenger* exploded. It was on its way to space. The shuttle was supposed to lift off earlier. The weather was cold. Then, something went wrong with a detector. The detector let people know if there was a fire. The problem was fixed. Later that day, the shuttle was ready. *Challenger* lifted off at 11:38 a.m.

The shuttle was carrying parts. The parts were for a satellite. A satellite travels around the Earth. Some satellites help some people watch TV. Others help people in faraway places make telephone calls. Other types of satellites help weather forecasters. They can tell what the weather is doing all over the world. The shuttle was also carrying cameras.

There were seven astronauts on board. One of them was a teacher. Her name was Christa McAuliffe. About 11,000 teachers wanted to go into space. Christa McAuliffe was chosen. She was the first teacher who was to go into space. She was the first person on a mission that did not work for NASA.

NASA tried to figure out what happened. All space flights stopped. This is what they found out. Hot gases leaked through a seal. Rocket flames went through the seal. It made a big hole. The flames burned. The shuttle exploded. It was more than two years before another shuttle went into space.

The astronauts' families helped people remember. They started the Challenger Center. It is an organization that supports space education. The Center has set up more than 40 Challenger Learning Centers. The centers help kids learn about space. The kids make believe that they are flying a mission. They have jobs. There is a control room. There is a space station. The kids do their jobs as if they were astronauts. They pretend they work for NASA.

The seven astronauts were heroes. They had courage. They knew going to space was dangerous. They did their job.

Challenger Heroes

Questions

1. What happened on January 28, 1986?

- _____ 2. How long was the space shuttle in the air before it exploded?

A. 60 seconds
B. 1 hour
C. 73 seconds
D. 2 hours

Name: _____

3. Why was the shuttle launch delayed?

_____ 4. The shuttle was carrying parts for a _____.

- A. TV
- B. car
- C. satellite
- D. rocket

5. What is a satellite?

_____ 6. About 11,000 teachers wanted to go into space, but Christa McAuliffe was chosen.

- A. false
- B. true

7. What caused the space shuttle to explode?

_____ 8. How long was it before another shuttle went into space?

- A. more than 1 year
- B. more than 3 years
- C. more than 2 years
- D. more than 4 years

9. The astronauts' families started the _____.

10. What do kids do when they visit a Challenger Learning Center?

Name: _____

Hunter hit the ball 12 times. David hit the ball 13 times. How many times did they hit the ball in all?

Mrs. Wilson drew some bubbles on cards. She put them in order. There were 3 bubbles on the first card. There were 6 bubbles on the second card. There were 9 bubbles on the third card. How many bubbles were on the sixth card?

Leilani put 15 slices of pineapple in a bowl. She ate four slices. Her sister ate five slices. How many slices of pineapple were left?

Megan had 30 smiley face stickers. She gave 11 stickers to Jane. How many stickers did she have left?

Fill in the numbers.

You Have the Power to Stop Cyberbullying

By Erin Horner

Have you ever seen a cartoon bully? He usually looks rough and tough. He might have big muscles and a scary smile. How about a cyberbully? You can't always see a cyberbully. Cyberbullies use technology to bother people. They send taunting text messages or "grief" people during games. Some spread rumors about people and send hateful e-mails. Others post bad pictures or share embarrassing stories about a person. Cyberbullies can be harder to *spot*, and they can be harder to *stop*, too. If someone is bullying you online, here is some advice from the stop bullying dot gov website. Don't respond to and don't forward cyberbullying messages. Block the person who is cyberbullying. Keep evidence of cyberbullying. Record the dates, times, and descriptions of instances when cyberbullying has occurred. Save and print screenshots, e-mails, and text messages. Use this evidence to report cyberbullying to web and cell phone service providers. Sometimes cyberbullying is a crime. You can report cyberbullying to the police. You can report it to your school, too. Stand up to cyberbullies!

You Have the Power to Stop Cyberbullying

Questions

1. Give two examples of cyberbullying.

2. What is the root word of *taunting*?

A. aunt
B. taunts
C. taunt
D. ting

3. **They send taunting text messages or grief people during games.** Which figurative language technique is being used in this sentence?

A. personification
B. onomatopoeia
C. simile
D. alliteration

4. Choose the best title:

A. What Is Cyberbullying?
B. The Dangers of Chat Rooms
C. I Love the Internet
D. The Worst Bully Ever

Name: _____

Jacob hated green peas. There were 23 peas on his plate. His mother said he had to eat them. "Yuck!" Jacob said. He put 8 peas in his mouth. How many peas were left on his plate?

Jason wants to buy a sea monkey. He has 7 dimes and 10 pennies. How much money does he have?

Mr. Smith has 18 ties. He gave his brother 7 ties. How many ties does he have now?

It takes 2 minutes to cook one pancake. How many minutes does it take to cook 2 pancakes?

There are two boxes of shampoo. There are five bottles of shampoo in each box. How many bottles of shampoo are there in all?

The bird ate 14 pieces of corn. Then he ate 4 more pieces. How many pieces did the bird eat in all?

Name: _____

Pat and Jan took a walk outside. Pat saw 5 shadows. Jan saw 7 shadows.

How many shadows did Pat and Jan see in all?

How many more shadows did Jan see than Pat?

Name: _____

The Stormy Shore

By Mary Lynn Bushong

"Maddy!" called Dad. "Would you like to walk on the shore?"

"Is it still raining?" asked Maddy.

"A little bit," said Dad. "It should stop soon."

Maddy put on her raincoat and hat. Then she put on her boots. The waves would come up high on the beach.

The house was well above the shore. Maddy followed her dad down the steps.

It was fun to be at the shore after a storm. Many times the waves washed things up on it.

Sometimes they would find driftwood. It would be in odd shapes.

They might also find seaweed or shells. One time they found a whale bone.

"What are we looking for, Dad?" asked Maddy. She bent down to pick up a shell.

"I want to see how high the storm surge was," said Dad.

"What is that?" asked Maddy.

"You know about the tides," said Dad. Maddy nodded her head.

"The storm came when it was high tide. The water was already up on the shore. Storms often make higher waves. They push more water onto the land. That is the storm surge."

"That means the stuff will be pushed higher on the shore?" asked Maddy.

"That is right," said Dad. "We might find some really neat things."

There were gulls on the shore. They were picking at dead fish.

The waves were still crashing on the rocky beach. Dad had found a long stick. He poked at the seaweed that marked where the highest waves had come in. He called it the high-water line.

"Come and look, Maddy," said Dad. He bent down to look at something he had found.

There, wrapped in the green seaweed, was a spiky, purple ball.

"What is it, Dad?" asked Maddy.

"It is a sea urchin," said Dad. "It is a kind of animal. It is in the same family as a starfish."

"Is it still alive?" asked Maddy.

"We can find out," said Dad.

He carefully picked up the spiky ball. Then he turned it over. The spikes on the bottom half were short. Between the spikes or spines were little tube feet.

"Look," said Dad. "The tubes are still moving. Perhaps we can put him in a bucket of sea water."

Name: _____

Maddy ran back up the steps to the house. Her beach bucket was next to the back door. She ran back to the shore and dipped some water into the bucket.

"Good job, Maddy," said Dad. He pointed out one more thing before putting the sea urchin in the bucket. "Do you see those five white things?" Maddy nodded. "Do you know what they are?"

"Teeth?" asked Maddy.

Dad nodded. "They are to help the urchins eat algae off the rocks." He gently put the urchin into the bucket. Then he covered the top with seaweed.

"We can come back when the tide is low," said Dad. "We can put him back. I can show you the tidal pools. There are many sea animals that live almost on shore. Until then, let us keep looking."

The Stormy Shore

Questions

_____ 1. Dad asked Maddy to walk:

- A. To a lake
- B. In the park
- C. On the shore
- D. In a race

_____ 2. What did Maddy not wear?

- A. Hat
- B. Raincoat
- C. Boots
- D. Swimsuit

_____ 3. The gulls were eating bread on the beach.

- A. True
- B. False

_____ 4. The storm surge was extra water pushed onto the beach by the storm.

- A. False
- B. True

_____ 5. Maddy and her dad sometimes found _____ in odd shapes.

- A. Shells
- B. Driftwood
- C. Fish
- D. Seaweed

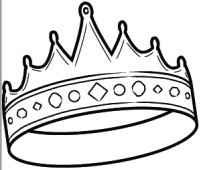

_____ 6. What did Dad find under the seaweed?

- A. A crab
- B. A fish
- C. A sea urchin
- D. Shells

Name: _____

- _____ 7. The animal had five tiny teeth.
A. True
B. False
- _____ 8. They put the animal in their swimming pool.
A. True
B. False

Red (and Blue!) Kangaroos

By Erin Horner

Red kangaroos are the largest marsupials in the world. A marsupial is a special kind of mammal that has a pouch on its belly. A mother marsupial uses this pouch to carry her young. When a baby red kangaroo (a joey) is born, he is smaller than a cherry. Once grown, however, he is a lot bigger! A male kangaroo, a jack, can be five feet tall and weigh more than two hundred pounds!

Not only are these kangaroos big, they are also very fast. A jack can hop faster than thirty-five miles per hour. He uses his very strong back legs to hop. He can also use these same strong back legs to defend himself. A jack can lean back on his long tail and use his short front legs and powerful back legs to box an enemy.

Jills, or female kangaroos, are usually smaller than the jacks in a kangaroo mob. Even though they are red kangaroos, these females are actually a bit blue. No, they are not sad! Their fur is just more blue-gray in color. Jills are also faster than male kangaroos. Because of their color and fast speed, some people in Australia call these jills "blue fliers."

Red kangaroos live in the grasslands and deserts of Australia. In the wild they can live to be more than twenty years old. If you ever find yourself in Australia, be on the lookout for a mob of red (and blue!) kangaroos. They might just hop your way.

Red (and Blue!) Kangaroos

Questions

1. What is a marsupial?

- _____ 2. In this story the word *mob* means:

A. to attack someone
B. a wild crowd
C. a group of kangaroos
D. a group of criminals

- _____ 3. A red kangaroo can use his strong back legs _____.

A. for gathering food
B. to keep his balance
C. for grooming
D. to defend himself

- _____ 4. A female red kangaroo is faster than a male red kangaroo.

A. true
B. false

☐ True☐ False☐ True☐ False☐ True☐ False☐ True☐ False☐ True☐ False☐ True☐ False☐ True☐ False☐ True☐ False

Did you find that two are true? If not, look again!

Hint: If you see the same pieces on both sides, you might need to remove both pieces.

You should only mark TRUE if you are absolutely sure it is correct!

word root **de** can mean **down****deposit, demolish**

Name: _____

Florence Harding

By Meg Leonard

Florence Kling was born in Ohio in 1860. She was the daughter of a successful businessman. She was very independent. As a young woman, Florence studied the piano. When she was 19, Florence married Henry de Wolfe. He soon left her alone with a young son. Florence and her son moved back to her hometown of Marion, Ohio. She did not move in with her parents. Instead, she taught piano lessons to support herself and her young child. Florence met Warren Harding. He had bought the town newspaper, called the *Daily Star*. They started to date. Warren and Florence were married in 1891. Florence took over the circulation department at the newspaper. She made the paper more successful. Warren became involved with politics. Florence helped his career. He was eventually elected to the United States Senate. In 1921, Warren was elected President of the United States. Florence helped in any way she could as first lady. She had many strong opinions. Warren called Florence "the Duchess." As first lady, Florence reopened the grounds of the White House to the public. They had been closed by President Wilson. Florence had a kidney ailment, but she did all of her tasks without complaining. Florence traveled with her husband. She was with him on a trip across the country. While on this trip, Warren died in California. Florence died a little more than one year after this.

Florence Harding

Questions

- _____ 1. Who was Florence Harding?
- A. the wife of Henry Harding
 - B. the wife of Warren Harding
 - C. the wife of Franklin Harding
 - D. the wife of Harry Harding
- _____ 2. What was the name of the newspaper owned by Warren Harding?
- A. Morning Star
 - B. Daily Star
 - C. Daily Express
 - D. Evening Star
- _____ 3. What did Warren call Florence?
- A. the Queen
 - B. the Duchess
 - C. the Princess
 - D. the Boss
- _____ 4. What was Warren doing when he died?
- A. skiing
 - B. fishing
 - C. boating
 - D. taking a trip across the country
