8 - 3 = 5

A cartoon robot character with a large eye and a friendly expression is looking at a subtraction problem. The problem is written as $20 - 10 =$. The numbers 20 and 10 are inside gear-like shapes. The robot is holding a pencil and appears to be about to solve the problem.

A cartoon robot character with a single large eye and a friendly expression is looking at a math problem. The problem is presented as two interlocking gears. The first gear is larger and contains the number 8. The second gear is smaller and contains the number 4. A minus sign is positioned between the two gears, and an equals sign follows the second gear. The robot is holding a pencil in its right hand, ready to solve the problem.
