Adam asked Hunter to guess his number.

"7," said Hunter.

"Lower," replied Adam.

"3," said Hunter.

"Higher," replied Adam.

What should be Hunter's next guess?

What are the possible numbers that could be Adam's number?

Amanda is 6 years old.

Her younger brother is Alex. He's older than 2 years old. How old can Alex be?

Alex can be _____ , _____ , or _____ years old.

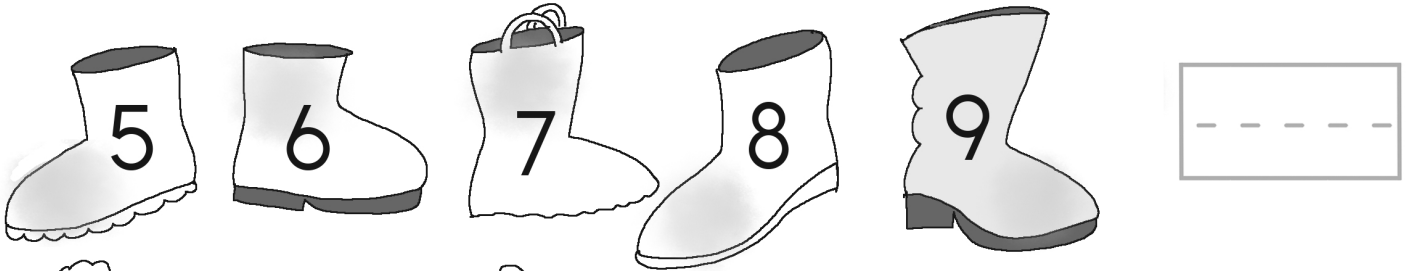

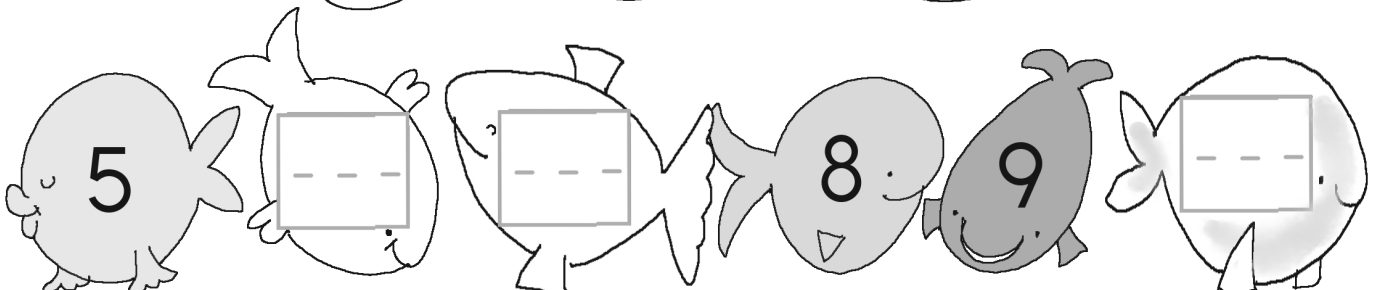

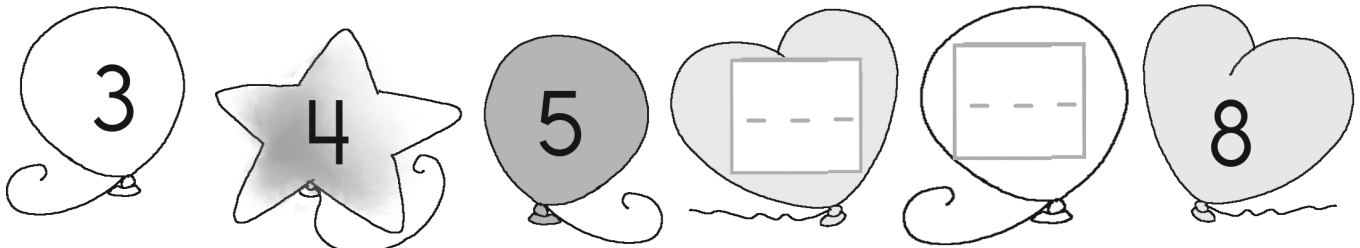

At Adam's birthday party, Adam's mom wrote on a piece of paper how many steps to take. She didn't show the paper or the number she wrote! Then she told everyone to take some steps. If your number of steps is correct, you win. The only hint she gave was that the number is greater than 3 but less than 6.

If you were at this party, how many steps would you take?

Adam is an old man. Okay, I'm joking. He is only 3 years older than April. April is 5 years old. How old is Adam?
