Put checks through the moons to show subtraction. Then write a subtraction sentence with the correct number answer.

Example:

What's 2 less than 5?

$$5 - 2 = \underline{3}$$

What's 6 less than 8?

$$8 - 6 = \underline{\quad}$$

What's 1 less than 10?

$$10 - 1 = \underline{\quad}$$

What's 3 less than 4?

$$4 - 3 = \underline{\quad}$$

Name: \_\_\_\_\_

# Subtraction

Hi there! I'm Albert the axolotl (ax·o·lotl). I've been told I *axolotl* questions. Get it? *Ask - a - lot!?!*

It's my most **favorite** season, axolotl egg hatching season! I have a question about the eggs. Some eggs have hatched, some have not. Can you tell me how many unhatched eggs are left? Thanks a **lot!**

Fill in the number bonds and solve the subtraction sentences.

A number bond diagram with a top circle containing the number 5, and two bottom circles containing the numbers 2 and 3. To the right of the number bond are five egg icons. The first two eggs are unhatched (showing a pink swirl), and the next three are hatched (showing a small pink axolotl). The three hatched eggs are enclosed in a dashed rectangular box.

$$5 - 3 = \underline{\quad}$$

A number bond diagram with a top circle and two bottom circles. To the right of the number bond are ten egg icons. The first two eggs are unhatched (showing a pink swirl), and the remaining eight are hatched (showing a small pink axolotl).

$$10 - 2 = \underline{\quad}$$

A number bond diagram with a top circle and two bottom circles. To the right of the number bond are eight egg icons. The first four eggs are unhatched (showing a pink swirl), and the remaining four are hatched (showing a small pink axolotl).

$$8 - 4 = \underline{\quad}$$

A number bond diagram with a top circle and two bottom circles. To the right of the number bond are six egg icons. The first five eggs are unhatched (showing a pink swirl), and the last one is hatched (showing a small pink axolotl).

$$6 - 1 = \underline{\quad}$$

Name: \_\_\_\_\_

Hi there! I'm Albert the axolotl (ax-o-lotl). I've been told I *axo/otl* questions. Get it? *Ask - a - lot!?!*

Did you know that some people keep axolotls as pets? Well, I happen to be a pet and it's pretty great. Just LOOK at these tasty bags of food that were brought home for me!

Today I have a question about this food. Some of it is being saved for later. Can you tell me how many tasty things I get to eat right now? Subtract what is being saved for later and draw what I get to eat right now. Thanks a *lot!*

total worms		worms to save	=	
8	-	5	=	3

total shrimp		shrimp to save	=	
6	-	2	=	

total snails		snails to save	=	
5	-	4	=	

total fish		fish to save	=	
9	-	7	=	

total worms		worms to save	=	
10	-	3	=	

total larvae		larvae to save	=	
7	-	2	=	

total fish		fish to save	=	
8	-	4	=
