Fill in the missing numbers. How? The sum of the four surrounding numbers is in the center of each square.

Exactly one of the four numbers has to be one of these numbers: 13, 12, or 27.

The other three numbers have to all be DIFFERENT and must be from these: 4.4, 3.2, 9.8, 7.2, 0.2, 2.4, or 5.4.

Jenna was at her favorite store at the mall when something caught her eye.

"What is it?" asked her brother, Billy.

"These pillows are so fluffy. My friends will love them, and they are only \$6 each," she said.

The sign above the pillows said, "Buy 3, get 1 free."

Jenna decided to buy one for herself and one for each of her three friends.

How much will this purchase cost?

Billy was checking his phone. "Wait!" yelled Billy. "I think it may be cheaper to buy on-line."

He checked his It's Cheaper app. The app said the pillows could be bought on-line for \$4 each. "The pillows are only \$4 each!" he yelled again.

Billy did not notice that the company also charges \$5 for shipping. If Jenna buys the pillows for herself and her friends with this app, how much will it cost?

Nathan is the best juggler, Max is the worst, and Peter is somewhere in-between.

"I wouldn't say I'm the worst," interrupts Max. "Just that you two are really good!"

"Totally," replies Peter. "Your high juggle is only 5 juggles away from mine."

Nathan, on the other hand, was not as polite. "You'd have to double your high, Max, and then some!" At least Nathan didn't say that the "then some" was really 10.

"At least it's not triple," interrupts Peter.

"Why are you so nice to Max? My high is double yours!" adds Nathan.

Peter was dumbfounded, "So what?" he says as he started to walk away, "Your high is only double figures. Jennifer is so much better than you. Her high is triple figures!"

What is the most number of juggles that Nathan has done? How about Peter? Max?

Alex, Jacob, Gavin, and Justin were having a hat-throwing contest. Alex threw his hat 1 foot 5 inches. Jacob threw his hat 2 feet 8 inches. Gavin threw his hat 3 feet 1 inch. Justin threw his hat 4 feet 6 inches and won the contest. How much further did Justin throw his hat than Gavin threw his hat?

Amy went to Cullowhee Café and ordered a hamburger with lettuce, tomato, and mayonnaise on it, a small order of french fries, and a large drink. The total price was \$4.77. If she pays for her meal with a 5-dollar bill, how much change will she get?

Robert made a display for the school library. It was about recycling. He used three sheets of poster board for the display. He bought the poster board at Fred's Art Supplies. It cost \$2.25 for the three sheets. He gave the clerk \$5. How much change did he get?

Add. Fill in the blanks.
