Women's History Month is celebrated every March. There are many fascinating women in history, one of whom is Ida B. Wells (1862-1931). While Rosa Parks (1913-2005) wouldn't give up her bus seat to a white man in 1955, Ida wouldn't give up her seat in a "whites-only" train car 71 years before that! Even though Ida got married in 1895 and remained married until her death, she was way ahead of her time when she chose to keep her maiden name rather than taking her husband's name as was traditional.

By how many years did the lives of the two women overlap?

Who lived longer – Rosa Parks or Ida B. Wells? By how many years?

Was Rosa Parks alive when Ida B. Wells refused to leave a "whites-only" train car? If so, how old would she have been? If not, how many years before her birth did it happen?
