Azula the alien will be watching the Superspoon Championship on Saturn and is making some snacks for her friends. She recently visited Earth and collected her favorite foods to share with her friends who had never been to Earth. She is going to surprise them with amazing apple-anchovy-pickle sandwiches with hot sauce. (Aliens have funny taste buds!)

She has five hungry friends coming over, so she makes two sandwiches for each friend and for herself, too. How many sandwiches does she make in all?

It took Azula four minutes to make each sandwich. How much time did she spend making sandwiches for her friends?
