Women's History Month is celebrated every March. There are many fascinating women in history, one of whom is Ida B. Wells (1862-1931). While Rosa Parks (1913-2005) wouldn't give up her bus seat to a white man in 1955, Ida wouldn't give up her seat in a "whites-only" train car 71 years before that! Even though Ida got married in 1895 and remained married until her death, she was way ahead of her time when she chose to keep her maiden name rather than taking her husband's name as was traditional.

By how many years did the lives of the two women overlap?

Who lived longer – Rosa Parks or Ida B. Wells? By how many years?

Was Rosa Parks alive when Ida B. Wells refused to leave a "whites-only" train car? If so, how old would she have been? If not, how many years before her birth did it happen?

Mrs. White needs to buy 38 cupcakes. At the mall, two stores sell cupcakes for the same price. Both stores have very tasty cupcakes. She has a coupon for the first store, Cupcakes Are Good. The coupon is \$3 off every 4 cupcakes you buy. Would you believe she also has a coupon for the second store, Buy Here? Her coupon for Buy Here says, "\$4 off for every 3 cupcakes you buy, So BUY HERE." Hmmm. Which store is the better buy? The store does not offer partial savings.

Jenna took home some pictures she drew at school. She found tape to put the pictures on the wall in her room. Each picture needed four pieces of tape. She used 64 inches of tape. Wow! That's a lot of tape. How many pictures did she put up. Oh, wait. You don't have enough information. Each piece of tape was 4 inches.
