Piranhas

By Brandi Waters

The Amazon River is in South America. It is the longest river in the world. In and around the Amazon River, you can find many animals. Some animals cannot be found anywhere else in the world. One of these animals is the piranha. Piranhas are a kind of fish. Piranhas are different from many other fish because that they eat meat. Piranhas have very sharp teeth. Their sharp teeth help them to eat many kinds of food. Piranhas eat seeds. They also eat other fish, birds, and snakes. Sometimes, piranhas will eat hurt animals that fall into the water. Many people think that piranhas are dangerous. They think that piranhas will attack people. This is not true. Piranhas are small fish. They cannot eat a lot of food. Only a school of piranhas would eat a large animal. Even then, piranhas will not attack a healthy animal. People should not be afraid of piranhas.

Piranhas

Questions

1. Where in the world can you find piranhas?

- _____ 2. Piranhas are a kind of _____.

A. snake
B. fish
C. bird
D. monkey

- _____ 3. Piranhas eat _____.

A. seeds
B. humans
C. fruit
D. all of the above

- _____ 4. Piranhas are _____.

A. large fish
B. giant snakes
C. small fish
D. colorful birds

5. When would a piranha attack a large animal?

Name: _____

Curly Cirrus Clouds

By Cindy Grigg

There are different kinds of clouds. Clouds can be big. Clouds can be small. Sometimes clouds cover the whole sky with a blanket of gray. Some clouds look like small, white curls high up in the blue sky. They have funny names! Those small clouds that look like curls of hair are called cirrus (sear-us) clouds. When you see a cloud, you are seeing water in the air. Most clouds are made of tiny drops of water. Cirrus clouds are made of ice. They form very high above Earth where it is very cold. Some people call them "mares' tails." These people think cirrus clouds look like the flowing hair of a horse's tail. Clouds can help you know what the weather might do. You usually see cirrus clouds when the weather is good. Seeing a few of these curly cirrus clouds means nothing. But if you see a lot of cirrus clouds, it means that a storm is coming in a day or so. Keep your eye on the sky!

Curly Cirrus Clouds

Questions

- _____ 1. What does the word "mare" mean?
- A. horse
 - B. tail
 - C. ice
 - D. cloud
- _____ 2. What is the story mainly about?
- A. There are different kinds of clouds, and they can tell you what the weather might do.
 - B. Clouds can be big or small.
 - C. Cirrus clouds are made of ice.
- _____ 3. What causes cirrus clouds to be made of ice instead of water?
- A. They form very high above Earth where it is very cold.
 - B. A few of these curly cirrus clouds mean nothing.
 - C. They mean that a storm is coming in a day or so.
4. Why should we learn about different kinds of clouds?
- _____
- _____
- _____ 5. Cirrus clouds are found _____.
- A. low to the ground, near Earth's land
 - B. high above Earth's land
- _____ 6. Clouds are made of _____.
- A. cold air
 - B. ice or water
 - C. whipped cream

Name: _____

There are over 2,700 kinds of snakes! The fastest snake on record is the African black mamba. It can crawl seven miles per hour over short distances. If it could travel a long distance at that speed, how far could a black mamba travel in three hours?

John Glenn's spaceship went very fast. It went 17,500 miles per hour! Express the number in expanded form.

Hunter had three dimes and a nickel. He bought a bag of peanuts. He paid 13 cents for the nuts. How much money does he have left?

Erin bought a joke book. It cost \$11.36. She gave the clerk one \$10 bill and two \$1 bills. How much change did she get?

$$\begin{array}{r} 13 \\ + \quad 6 \\ \hline \end{array}$$

$$\begin{array}{r} 19 \\ + 80 \\ \hline \end{array}$$

$$\begin{array}{r} 56 \\ - 20 \\ \hline \end{array}$$

How much is this?

$$\begin{array}{r} 16 \\ + 52 \\ \hline \end{array}$$

$$\begin{array}{r} 52 \\ + \quad 1 \\ \hline \end{array}$$

Name: _____

Max did not believe in bad luck. He broke 13 mirrors. He walked under 13 ladders. He stepped on 13 cracks in the sidewalk. He let 13 black cats walk in front of him. On his way home from school he found 13 dimes. How many more dimes does he need to have \$2.60 worth of dimes?

Adam saw 1 movie about Superman. Connor saw 3 movies more than Adam. How many movies did Connor see?

Jenna wants to buy a book of poetry. She shook a handful of coins out of her bank. There were 11 pennies, 4 nickels, 10 dimes, and 1 quarter in her hand. If Jenna put the coins in a box and you picked one at random, which coin would you most likely pick?

Easton Elementary School is having a "Sign My T-Shirt Party" on White T-Shirt Day. Each student will wear a white t-shirt. When the party begins each student will sign all the other students' shirts. The principal bought drinks and cookies for the students. The drinks cost \$32.13. The cookies cost \$20.34. How much did the drinks and cookies cost in all?

Name: _____

The Great Depression in Canada

By Mary Lynn Bushong

Do you get hungry? What do you do? Do you make yourself a sandwich? What if you had no food?

There was a time when few people had money. Jobs were hard to find. There was little money for food.

Many people were unhappy. What could they do?

In the 1930s, there was very little rain. Crops would not grow. People could not grow food.

The farmers could not sell crops for money. They left their farms. They went to the cities to look for work. There was no work in the cities.

This time was called the Great Depression. It hurt all the people in Canada. Some were hurt more than others. Nearly one-third of the people had no jobs.

Some people thought it would be short. It was not. It lasted for ten long years.

The government tried to help. It gave money to many families to keep them from starving.

Young men were given work. They had to be over 16. They had to be single. The men stayed at work camps. The work camps were in British Columbia and Ontario. Life there was not easy. The men worked six and a half days a week. They got food, clothes, and a bed. The pay was 20 cents a day.

Many of the men were angry. They wanted more. They wanted more money and better food. They joined together. The men wanted to talk to Prime Minister Bennett.

The men got on trains. They would go to see the prime minister. When the train stopped at stations, more men got on. They were called trekkers.

Mr. Bennett did not want to see them. He had them stopped. The RCMP met them in Regina, Saskatchewan. They could not all go to Ottawa. Eight men were chosen to speak for them.

The men met with Bennett. It was not a good meeting. The men got angry and left. Even so, changes were made.

During the Depression, many things cost too much money. One of those things was gasoline. Some people could not buy gas, but they had horses. They hitched their horses to their cars. A car pulled by a horse was known as a "Bennett buggy."

During the 1935 election, Bennett was voted out. Mackenzie King became prime minister.

King had different ideas. He helped make the CBC so people could listen to radios. They could enjoy music. They could hear radio stories. They could hear the news.

King made the Bank of Canada a national bank. It helped manage Canada's money.

Britain tried to help Canada. The British bought more and more Canadian goods. They bought lumber, farm products, and minerals.

The Depression was hard on many people. One out of every three people had no job. Few people had money. Many needed help.

Things got better slowly. World War II started in 1939. After that, the Depression ended. Many things were needed for the war. Canada made goods and sold them to Great Britain and other countries. People had jobs again.

The Great Depression in Canada

Questions

- _____ 1. What did some farm people do when they couldn't grow crops?
- A. They begged for food.
 - B. They moved back to family farms.
 - C. They went to the cities to look for work.
- _____ 2. There was not enough rain for crops to grow.
- A. false
 - B. true
- _____ 3. This time was called:
- A. The Great Depression
 - B. The Dry Years
 - C. The Dry Depression
 - D. The Terrible Depression
- _____ 4. The government gave money to help some families.
- A. true
 - B. false
- _____ 5. Single men were given easy, city jobs.
- A. true
 - B. false
- _____ 6. The men who went to see Bennett were called _____.
- A. trudeaus
 - B. trekkers
- _____ 7. When horses pulled cars, the cars were called _____.
- A. Bennett wagons
 - B. horse cars
 - C. dune buggies
 - D. Bennett buggies
- _____ 8. People did not listen to radios for:
- A. stories
 - B. wrestling
 - C. music
 - D. news

How many pumpkins were picked in all?

Name: _____

Tidal Range

By Cindy Grigg

Caption: High tide on the left; low tide on the right at the Bay of Fundy.

At high tide, the ocean comes up high on the shore. Water covers the beach.

Then the water goes back out to sea. Tides change about every six hours. We have high tides twice a day and low tides twice a day. What causes the tides?

The moon's gravity pulls on the Earth. As it pulls, it causes the oceans' waters to pile up. Water actually bulges outward from Earth's surface. Because Earth is rotating, there is a second bulge on the opposite side of Earth. As water is pulled to one place, it leaves a low spot in other places. High tides happen where the water is bulging outward. Low tides happen where it is not.

The vertical distance between high tide and low tide is called the tidal range. In other words, tidal range is the difference, usually measured in meters or feet, between the water level at high tide and the water level at low tide.

The biggest tidal ranges happen during the full moon and the new moon. This is when the pull of gravity from the moon and the sun is pulling in the same direction. These are called spring tides. The smallest tidal range happens during the moon's first and last quarters. At these times, the pull from the moon's gravity is at a right angle to the pull of the sun's gravity. These are called neap tides.

At the seashore, the tidal range can be several feet. One of the biggest tidal ranges in the world is at the Bay of Fundy in Canada. The tidal range there can be more than fifty feet.

Tidal Range

Questions

- _____ 1. The tidal range is _____.
 - A. the vertical distance between high tide and low tide
 - B. the difference between the water level at high tide and the water level at low tide
 - C. usually measured in meters or feet
 - D. all of the above
- _____ 2. When do the biggest tidal ranges happen?
 - A. during the full moon and the new moon
 - B. during the moon's first and last quarters
 - C. during the morning
 - D. during the evening
3. About how many hours are there between high tide and low tide?

Name: _____

_____ 4. Spring tides occur _____.

- A. in the spring
- B. during the full moon and the new moon
- C. during the moon's first and last quarters
- D. none of the above

_____ 5. The author's purpose for writing this story was to _____.

- A. inform

Famous for Fairy Tales

By Jody Williams

Who wrote this fairy tale? A prince is looking for a princess. He meets many. None are right for him. One day, a young woman knocks on his door. She says that she is a princess. She was lost in the rain. The prince had to make sure she was a princess. He asked her to sleep on top of twenty mattresses. There was a pea underneath all of them. If she was a true princess, she would have trouble sleeping. She did. The prince married her. Hans Christian Andersen wrote this story in 1835.

Hans Christian Andersen was born on April 2, 1805. He was born in Denmark. Denmark is a country in Europe. He was a smart boy. He liked to pretend. When he was young, he made puppets. He made clothes for them. He built a stage. Hans put on puppet shows. Hans liked to read. He used his puppets to tell the story.

Hans' father died when he was 11 years old. He had to work to help earn money for his family. He worked for a weaver. He worked for a tailor. A tailor makes clothes. He also worked in a factory. Hans was made fun of. He had a high voice. Others teased him.

When Hans was 14 years old, he became an actor. He started writing. He published a story. The king of Denmark liked Hans. He sent him to school. Hans was much older than the other children. He did not do very well. His teachers were not helpful. They believed that he could not write. He felt different.

After Hans left the school, he kept writing. In 1835, he wrote his first novel. People liked his work. Later that year, he wrote his first book of fairy tales. At first, people did not like his fairy tales. They became popular later in his life.

Hans traveled around Europe. He used his experiences to write a new set of books. He wrote about the sights that he saw. He wrote about being an author. Hans even added fairy tales that he created. He called his books travel sketches.

Later, Hans tried writing fairy tales again. This time, people liked his work. At first, he did not write the fairy tales for children. Each fairy tale had a message. Adults thought that their children could learn from the stories. Hans quickly became known as a children's author.

"The Ugly Duckling" is one of Hans' most famous stories. It is about a bird. When he hatches from his egg, he notices that he is different from the others. They all look like baby ducks. He does not. They all quack like ducks. He honks. Other ducks make fun of him. They do not let him play with them. He tries to not let it get to him. One day, he starts to change. He still does not look like the other ducks. Instead, he looks like a beautiful swan. There is a message in the story. It is more important what a person is like on the inside than how he looks on the outside.

In 1875, Hans Christian Andersen died. His fairy tales are still told to children today. Children still like "The Little Mermaid." They like "The Emperor's New Clothes." "The Princess and the Pea" is a favorite of many.

Name: _____

Famous for Fairy Tales

Questions

1. In Hans Christian Andersen's story, "The Princess and the Pea", how does the prince know that the princess is a real princess?

- _____ 2. Hans Christian Andersen was born on April 2, 1805.

A. true
B. false

- _____ 3. What did Hans like to do when he was young?

A. He made puppets.
B. He made a puppet stage.
C. He liked to read.
D. He put on puppet shows.
E. all of the above

- _____ 4. Who made it possible for Hans to go to school?

A. He earned money by himself.
B. the king of Denmark
C. his mother
D. his father

- _____ 5. Hans kept writing even though his teachers thought that he could not.

A. true
B. false

6. What were Hans' travel sketches about?

7. At first, Hans' fairy tales were written for adults. Why did they become popular with children?

8. What is "The Ugly Duckling" about?

Mariachi Festival

By Brenda B. Covert

Every year beginning in late-August, people crowd into the city of Guadalajara in the state of Jalisco, Mexico. They come to enjoy the Mariachi Festival. The festival is a ten-day-long event! Mariachis from around the world come every year to perform in the festival.

Mariachi is a popular style of Mexican music. The musicians - called mariachis - wear large Mexican hats with flashy charro suits. Not only is a charro a suit, it's also the name Mexican cowboys are known by. The charro-wearing mariachis play trumpets, violins, guitars, and folk harps. They sing Spanish songs.

The festival coordinator said, "Musicians from around the world come to this event to see where it all started, to enjoy the sounds of some of the best mariachi groups around." Would you believe there has even been a mariachi group from Japan at the festival? It's true!

The Mariachi Festival begins with a big parade. Mariachi groups ride floats or march through Guadalajara, playing for the people who have lined the streets to watch. There are gala dinners, rodeos, and concerts, of course. There are also mariachi competitions! Some festival shows are free, while others require tickets. Music workshops are available to those who want to learn more about mariachi.

Music is the reason for the festival, but that's not all there is. As with many American festivals, arts and crafts are on display and for sale at the Mariachi Festival. And since people tend to get hungry, Mexican food is also available! There is no better way to embrace the Hispanic culture than to take in the sights and sounds of the Mariachi Festival.

Mariachi Festival

Questions

- _____ 1. How often is the Mariachi Festival in Guadalajara held?
- A. monthly
 - B. once each decade
 - C. yearly
 - D. very often
- _____ 2. In which country is Guadalajara, where the Mariachi Festival is held?
